CODE#1409, 1412

Rated Voltage 220-240V~ 50Hz

Thank you for purchasing this quality product. To ensure correct function and safety, please read and follow all instructions carefully before assembly, installation and use of the product. Please keep the instructions for future reference.

Warranty

- Please retain proof of purchase.
- Warranty will be void if there is any damage due to improper usage or modification to the product.
- Failure to comply with the instructions in this manual may increase the risk of damage or injury and will void warranty.

Installation requirements

- **NOTE: This light kit must only be installed onto the FRANCOLIN Fan – CODE# 2523, 2559. It must NOT be used for any other purpose.**
- Must be installed by a licensed electrician.
- All wiring and installation of the light fitting must adhere to local and national wiring rules.
- Do not exceed the maximum wattage rating.
- Select a suitable location for installation;
 - This product is suitable for indoor use only.
 - Ensure the fitting is not installed next to any air vents and is not in any moist or damp areas.
- Take care not to pull any electrical wires during unpacking as this may damage the connection.
- Lay out all the components on a smooth surface and make sure there are no components missing before assembling. If parts are missing, return the complete product to the place of purchase for inspection or replacement.
- Check whether the luminaire has been damaged during transport. Do not operate/install any product which appears damaged in any way. Return the complete product to the place of purchase for inspection, repair or replacement.
- Ensure power to the circuit you are working on has been switched OFF before commencing any electrical work.

Installation directions

Remove all packaging material from the product and be careful not to throw away accessories that may be hidden within the packaging material.

1. Remove the bottom cover of the fan by turning anti-clockwise. (Fig. 1)
2. Connect the wires of the light kit to the motor via the quick connector. (Fig. 2)
3. Install the light kit on the fan motor part then secure it by turning clockwise. (Fig. 2)
4. Install the GX53 lamp (not included) to the light kit. Do not exceed the maximum power rating. (Fig. 3)

Safety tips

- Always ensure the power is OFF and the luminaire has cooled down before performing any maintenance, cleaning, or making any adjustment to the luminaire.
- To avoid injury or damage to the luminaire, ensure that power leads and screws are secure before connecting the power.
- Select a suitable location according to the installation requirements.
- Ensure that the luminaire does not come into contact with corrosive chemicals etc.
- To clean, wipe with a damp clean cloth. Do NOT soak or immerse the product in water or other liquids.
- The light source of this luminaire is not replaceable; when the light source reaches its end of life the whole luminaire shall be replaced.
