

INSTALLATION INSTRUCTION FOR 3557

Please read this instruction sheet carefully and keep it for future reference. The fitting must be installed by a licensed electrician.

INSTALLATION

Before installation, ensure power is off, and please pay attention to the following steps:

1. Hammer the plastic anchors (1) to the ceiling. And then fix the mounting plate (3) to the ceiling by using the machine screws (2) until tight
2. Connect the mains supply to the terminal box (4), using the following code for the wiring:
 - Connect the positive of power wire to the corresponding terminal on the terminal block Marked “L”
 - Connect the negative of power wire to the corresponding terminal on the terminal block marked “N”
 - Connect the earth wire (5) to the corresponding terminal on their terminal block marked “⊕”. Be sure to connect to ground lead.
3. Fix the fitting (9) to the mounting plate (3), with screws (6) to secure.
4. Use the socket ring (7) to secure the cover (8) to the fitting (9).
5. Install the bulb (excluded) onto the lampholder, the bulb must not exceed the specified wattage on the label.
6. Restore mains supply and switch on.
