

# 4098 Instructions

**Warning:** Increased weight of lamp may reduce the mechanical stability of certain luminaires and lamp holders and may impair contact making and lamp retention.

- This LED lamp is suitable for domestic indoor use only.
- Use the switch on the LED lamp to select your desired colour temperature - 3000K or 4000K or 5000K.

**NOTE:** Dimming may cause buzzing sounds or a flicker. There may be slight delays with the LED light start up or slight uneven light performance when more than one LED light luminaire is linked together, switched ON or dimmed. This is not a product fault and as such is not covered under warranty.
